

get the power.

**ADVANTAGES:**

- digital multi-channel Power enhancement
- 50 MHz/50 MIPS Automotive CPU
- 3 LED's for Status and Check-Control
- 3x 10-way coding switch for fine tuning
- water-resistance plastic case
- Automotive FCI-Connector
- DIN EN ISO certified production

**POWER-ENHANCEMENT V2.0:
Next Generation
is available**

After one year of intensive development we are pleased to present our improved performance enhancement to you. The new 2.0 version has an extremely fast 50 MHz Automotive CPU and 3 tenfold coding switches for even more fine tuning. In addition, an Automotive FCI connector system is used. The new high-tech electronics are located in a specially designed plastic housing, which is

virtually waterproof due to a special locking technology.

The 2.0 version is now available, however, it will not generally replace the 1.0 version in the future. From now on, you as a customer may choose which of the two versions you would like to offer your customers. Please ask us about the current purchase prices.

**NEW
UPDATE!**

MAY 2014

NOW AVAILABLE:

More Power for AMG 45 Engine

The 45 AMG with 361 hp now comes with even more power. The **interstar AUTOMOTIVE** performance enhancement is easy to install and provides the „race car“ with around **440 hp and 550 Nm**.

The performance enhancement is supplied with the new 2.0 version in a plastic housing.

Please note the following: Performance enhancements are available for models of all car manufacturers from Alfa Romeo to Volvo. Please feel free to contact us for a vehicle list and purchase prices. You can contact us at any time at the following email address: **info@interstar-automotive.com**
